# Muhammad Sabih Ur Rehman

Computer System Engineer | Data Science Enthusiast | Android Developer | Front End Developer | Web Developer

Karāchi

## Summary

I'm known as Sabih Mallick, I am 19 years old and currently living in Karachi, Pakistan.

If I can share one thing about myself it would be that I am fiery and love challenging myself. I embrace it when people tell me I cannot do something and generally hit harder when hit.

I do not firmly believe in horoscopes, but I can say I find interest in how they define TAURUS the same as I see myself.

A reliable, easy-going, passionate in recruiting and talking to people.

I am a determined student-driven by setting and getting goals.

Currently, I'm a Sophomore at NED University of Engineering and Technology doing undergrads in Computer and information systems engineering. Also, I participated in many extra-circular activities such as karate, gymnastics, English plays, International Math Kangaroo Competition, athletics, football, and futsal inter-school tournaments. I captained my futsal side to several tournaments. I suppose my top Tier interest is ultimately Health & Well-being. Without your health and well-being, you ain't got nothing. I am keen on learning more about Data Science, Artificial Intelligence, and Cyber Security,
